Frost can be fatal to a fledgling wine business ... gorgeous glitter with a high price tag. On a winter's day it is beautiful, but on a spring day after bud burst it means devastation. For Seán and Caro Feely, a couple whose love affair with wine and France has taken them through financial and physical struggle to create their organic vineyard, it could spell the end. Until they receive an unexpected call that could save their skins ... This tale is about

life, love and taking risks, while transforming a piece of land into a flourishing vineyard and making a new life in France.
